

The National Student and Faculty Survey of Canadian Schools of Nursing 2003-2004

Report 2: Diploma and Degree Programs Reported Admissions, Enrolment and Graduates, 2003-2004

Data contained in this table is based on information provided by responding schools.

A thorough review of the Notes section is essential.

<u>Program Category</u>	<u>Examples of Program Names found in this Program Category</u>
Diploma	Diploma, Diploma Exit, Diploma Bridge to RN, DEC
Baccalaureate	Standard, Generic, Collaborative, Accelerated, Fast Track, Advanced, Compressed, Technology in Nursing, Psychiatric Nurse to RN Baccalaureate
Post RN Baccalaureate	Post RN Baccalaureate
Master's	Master in Nursing, Post Baccalaureate Advanced Graduate Diploma, DESS
Doctoral	Doctorate in Nursing
Nurse Practitioner	Nurse Practitioner Certificate, Nurse Practitioner Diploma, Nurse Practitioner programs integrated with degree programs

- .. Figures not available
- ... Figures not appropriate or not applicable
- ^r Revised figures (resulting from late submission or corrections submitted by schools)

Notes

1) Different collection periods, methodologies and under-reporting from a small percentage of schools may result in differences between the records of your province/territory and the national student and faculty data. **Please consult the "Survey Methodology" document.**

Report 2: Diploma and Degree Programs Reported Admissions, Enrolment and Graduates, 2003-2004

Notes (continued)

2) The 2003-2004 survey was sent to 134 schools offering nursing programs; 116 schools completed the survey; 15 CEGEPs, 1 B.C. college, 1 Ont. college and 1 Que. university did not complete the survey.

Of the 116 schools that completed the survey, the following summarizes omitted or incomplete data by program:

Diploma:	5 schools did not report admission data; 4 schools did not report graduate data
Baccalaureate:	7 schools did not report admission data; 1 school did not report enrolment data
Post-RN:	9 schools did not report admission data; 7 schools did not report enrolment data
Master's:	1 school did not report admission data
Doctoral:	1 school did not report admission data; 1 school did not report enrolment data
Nurse Practitioner:	3 schools did not report admission data; 2 schools did not report enrolment data

3) Colleges and universities may establish program delivery partnerships that cross provincial/territorial boundaries. Where these partnerships exist, data are treated as follows: Admission and enrolment data are recorded according to the program delivery responsibility of each partner. Graduates are captured in the graduate data of the university partner because the university awards the program degree. Please consult the "Survey Methodology" document for additional details.

Data for three out-of-province/territory baccalaureate collaborative partnerships are included in the table above. These partnerships are Aurora College, N.W.T., partnered with the University of Victoria, B.C.; Nunavut Arctic College, N.T. partnered with Dalhousie University, N.S.; and Humber College, Ont., partnered with the University of New Brunswick, N.B.

N.B.: The first cohort of baccalaureate students from Aurora College transferred to the University of Victoria in the academic year 2004-2005. The first cohort of baccalaureate graduates from the Nunavut Arctic College/Dalhousie University collaborative baccalaureate program will graduate in 2004. The first cohort of baccalaureate graduates from the Humber College/University of New Brunswick collaborative baccalaureate program will graduate in 2005.

4) Nurse practitioner programs may be combined (i.e., "integrated") with baccalaureate, post RN or master's degree programs, and schools may report separate data for these integrated programs. In these instances, data are recorded under the nurse practitioner program and the corresponding degree program. As a result, baccalaureate, post RN and master's degree programs contain admission, enrolment and graduate data that are double counted in both the degree program and the nurse practitioner program. The double count totals are minimal. For example, 10 of a total of 25,919 baccalaureate students are counted in the enrolment of baccalaureate and again in the enrolment of nurse practitioner programs. Additional data on the exact number of double counts are available by request. Please contact Nancy Field by e-mail: nfield@cna-aiic.ca.

Definitions

Admission: The number of first-time students admitted to Year 1; calculated after allowed withdrawal date

Enrolment: The number of students enrolled in each year of the program

Graduate: The number of students graduated from the program
