Notes

1) Different collection periods, methodologies and under reporting from a small percentage of schools, may result in differences between the records of your province/territory and the National Student and Faculty data. **Please consult the Student and Faculty Survey Methodology document.**

2) The 2003-2004 survey was sent to 134 schools offering nursing programs; 116 schools completed the survey; 15 CEGEPs, 1 B.C. college, 1 Ont. college and 1 Que. university did not complete the survey.

Of the 116 schools who completed the survey, the following summarizes omitted or incomplete data by program:

- Diploma: 5 schools did not report admission data; 4 schools did not report graduate data
- Baccalaureate: 7 schools did not report admission data; 1 school did not report enrolment data
- Post RN: 9 schools did not report admission data; 7 schools did not report enrolment data
- Master's: 1 school did not report admission data
- Doctoral: 1 school did not report admission data; 1 school did not report enrolment data
- Nurse Practitioner: 3 schools did not report admission data; 2 schools did not report enrolment data

2002: The 2003-2004 survey was sent to 134 schools offering nursing programs; 29 CEGEPs and 4 Que. universities did not complete the survey.

Of the 101^r schools who completed the 2002-2003 survey:

- Diploma: 1 school did not report admission, enrolment or graduate data
- Baccalaureate: 1 university did not report admission data.
- Post RN: 4 universities included admission, enrolment and graduate data as part of Baccalaureate data.
5 universities did not report enrolment data; 2 universities did not report graduate data.
- Master's: 2 universities did not report admission or graduate data; 4 universities did not report enrolment data.
- Doctoral: 2 universities did not report admission data.
- Nurse Practitioner: 1 university did not report admission data; 5 universities did not report enrolment data; 2 universities did not report graduate data.

2001: 15 CEGEPs and 1 Que. university did not respond to the survey. Of the responding schools, 18 schools did not report admission data; 19 schools did not report enrolment data and 17 schools did not report graduate data.

2000: 16 schools did not respond to the survey.
Of the responding schools, 1 school did not report admission data; 4 schools did not report enrolment & graduate data.

1999: 20 schools did not respond to the survey. Of the responding schools, 10 did not report admission data; 9 schools did not report enrolment data.

Report 3: Diploma and Degree Programs Reported Admissions, Enrolment and Graduates by Type of Nursing Program, 1999 to 2003

Notes (continued)

3) Colleges and universities may establish program delivery partnerships which cross provincial/territorial boundaries. Where these partnerships exist, data is treated as follows: admission and enrolment data are recorded according to the program delivery responsibility of each partner. Graduates are captured in the graduate data of the university partner because the university awards the program degree.

Please consult the Survey Methodology document for additional details.

Data for three out-of-province/territory baccalaureate collaborative partnerships are included in the table above. These partnerships are: Aurora College, N.W.T., partnered with the University of Victoria, B.C.; Nunavut Arctic College, N.T. partnered with Dalhousie University, N.S.; and Humber College, Ont., partnered with the University of New Brunswick, N.B.

N.B.: The first cohort of baccalaureate students from Aurora College transferred to the University of Victoria in the academic year 2004-2005. The first cohort of baccalaureate graduates from the Nunavut Arctic College/Dalhousie University collaborative baccalaureate program will graduate in 2004. The first cohort of baccalaureate graduates from the Humber College/University of New Brunswick collaborative baccalaureate program will graduate in 2005.

4) Nurse practitioner programs may be combined (i.e. "integrated") with baccalaureate, post RN or master's degree programs and schools may report separate data for these "integrated" programs. In these instances, data are recorded under the nurse practitioner program and the corresponding degree program. As a result, baccalaureate, post RN and master's degree programs contain admission, enrolment and graduate data that is double counted in both the degree program and the nurse practitioner program. The double count totals are minimal. For example: 10 out of a total of 25,919 baccalaureate students are double counted in the enrolment of baccalaureate and again in the enrolment of nurse practitioner programs. Additional data regarding the exact number of double counts are available by request. Please contact Nancy Field by email: nfield@cna-aiic.ca.

5) Data on nurse practitioner programs not collected before 2001.

6) Previous to 1998, collection was for academic year. The 1998 to 2000 collection was for calendar year. As of 2001, collection returned to academic year (Sep. 1 to Aug. 31) for enrolment, but remains at calendar year for graduation.

Definitions

Admission: The number of first time students admitted to Year 1; calculated after allowed withdrawal date.

Enrolment: The number of students enrolled in each year of the program.

Graduate: The number of students who successfully graduated from the program.
