

The National Student and Faculty Survey of Canadian Schools of Nursing 2004-2005

Report 2: Admissions, Enrolment and Graduates, 2004-2005

Data contained in this table is based on information provided by responding schools.

A thorough review of the End Notes and General Notes sections located below the table is essential.

Program Category	Examples of Program Names Found in this Program Category
Diploma	Diploma, Diploma Exit, Diploma Bridge to RN, DEC
Baccalaureate	Standard, Generic, Collaborative, Accelerated, Fast Track, Advanced, Compressed, Technology in Nursing, Psychiatric Nurse to RN Baccalaureate
Post-RN Baccalaureate	Post-RN Baccalaureate, DEC BACC
Master's	Master's in Nursing
Doctoral	Doctorate in Nursing
Nurse Practitioner (NP)	NP, BSCN/NP Integrated, Post-RN/NP Integrated, MN/NP

Report 2: Admissions, Enrolment and Graduates, 2004-2005

End Notes

1. School data include diploma programs that are being phased out.
2. NP programs may be combined (i.e., integrated) with baccalaureate, post-RN or master's degree programs, and schools may report separate data for these integrated programs. In these instances, data are recorded under the NP program and the corresponding degree program. As a result, baccalaureate, post-RN and master's degree programs contain admission, enrolment and graduate data that are counted in both the degree program and the NP program. Such double count totals are minimal. For example, 29 of a total of 27,597 baccalaureate students are counted in the enrolment of baccalaureate and again in the enrolment of NP programs. Additional data on the exact number of double counts are available by request. Please contact Nancy Field by e-mail: nfield@cna-aiic.ca.
3. Colleges and universities may establish program delivery partnerships that cross provincial/territorial boundaries. Where these partnerships exist, data are treated as follows: Admission and enrolment data are recorded according to the program delivery responsibility of each partner. Graduates are captured in the graduate data of the university partner because the university awards the program degree. **Please consult the Survey Methodology document for additional details.**

Data for four out-of-province/territory baccalaureate collaborative partnerships are included in the table above. These partnerships are Aurora College, N.W.T., partnered with the University of Victoria, B.C.; College Universitaire Saint-Boniface, M.B., partnered with University of Ottawa / Université d'Ottawa, Ont.; Nunavut Arctic College, Nunavut, partnered with Dalhousie University, N.S.; and Humber College, Ont., partnered with the University of New Brunswick, N.B.

N.B.: The first cohort of baccalaureate students from Aurora College transferred to the University of Victoria in the academic year 2004-2005. The first cohort of baccalaureate graduates from the Nunavut Arctic College/Dalhousie University collaborative baccalaureate program graduated in 2004. The first cohort of baccalaureate graduates from the Humber College/University of New Brunswick collaborative baccalaureate program will graduate in 2005.

General Notes

Different collection periods, methodologies and under-reporting from a small percentage of schools may result in differences between the records of your province/territory and the national student and faculty data. Please consult the Survey Methodology document.

The 2004-2005 survey was sent to 134 schools offering nursing programs; 120 schools completed the survey; 13 Que. CEGEPs (13 diploma programs), and 1 Ont. college (1 baccalaureate program) did not complete the survey. See Report 1 for the number of programs reported.

Of the 120 schools that completed the survey, the following summarizes omitted or incomplete data by program:

Diploma:	7 schools did not report admission data; 1 school did not report enrolment data; 1 school did not report graduate data
Baccalaureate:	1 school did not report admission data
Post-RN:	3 schools did not report admission data; 1 school did not report enrolment data
Master's:	All schools reported all data
Doctoral:	2 schools did not report admission data
NP:	4 schools did not report admission data

Definitions

- Admission: The number of first-time students admitted to Year 1; calculated after allowed withdrawal date
Enrolment: The number of students enrolled in each year of the program
Graduate: The number of students graduated from the program
