INTELLIGENT VIDEO SOLUTIONS

VALT
VIDEO AUDIO LEARNING TOOL

ABOUT VALT
We Focus on Simple, Secure Video Solutions. You Focus on Better Outcomes.

WHO WE SERVE

Anyone who needs video capture software to stream, record, and debrief simulation activities. Simulation educators, technologists, and coordinators use VALT to help achieve their simulation objectives and learning outcomes.

OBSERVE

Monitor any number of spaces and provide real-time feedback to simulation participants.

RECORD

Capture simulations for review and assessment. Sort, search, and report on video content.
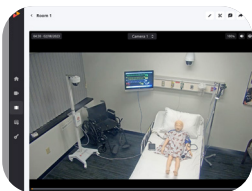

DEBRIEF

No video rendering time required. Use playback tools and markers for debrief.

WHAT WE OFFER

Video recording and observation solutions for simulation-based training. Our flagship software, VALT, is reliable, easy to use, and supports any simulation scenario.

SIMPLE

VALT features, workflows, and data are configured for each user group. Only see what you need for your simulation.

STABLE

VALT uses minimal hardware to reduce potential points of failure, so it works as expected, when expected.

SCALABLE

VALT supports centralized system management and makes deployment, maintenance, and expansion economical.

SECURE

VALT includes the technical safeguards to meet your information security compliance requirements.

ABOUT VALT

The Fast and Easy Intelligent Solution to Find Your Video

WHO WE ARE

Intelligent Video Solutions (IVS) is a group of video technology professionals unified by the goal of providing outrageous customer service. Our purpose is to create success and improve lives by providing simple, secure video solutions for simulation.

We pair our VALT software with a portfolio of professional services:

SYSTEM DESIGN

From a one-room lab to a multi-site simulation facility, we design audio/video solutions for any space. In addition, we design based on your objectives for audio/video capture to enhance simulation-based training, the activities you want to capture, and your preferred workflows.

TECHNOLOGY DEVELOPMENT

Our development team architected VALT to support any method of deployment and continuous enhancements. One of the benefits of working with us is your feedback positively impacts the development of VALT.

A/V INTEGRATION

We provide the audio/video equipment and installation services required for a turnkey implementation. Our in-house technicians are certified to handle all aspects of the installation process including mounting cameras and microphones, setting up your network equipment, and configuring the software. They provide expert recommendations to ensure optimal system setup and performance of your VALT system.

SUPPORT AND MAINTENANCE

Our in-house support team is based in Wisconsin and available via phone, email, or scheduled web session. They address technical needs with expertise and efficiency. Plus, our software support agreement maximize your Return On Investment by providing a 5-year hardware warranty, technical support, maintenance and software updates.
