

Competency.AI™

## A Workforce Development Solution for Healthcare

Track Clinical Capabilities | Monitor & Manage Training | Increase ROI

The constant evolution of healthcare practice and technology requires health systems to provide continuous professional training and development to advance and improve patient care.

Education Management Solutions' (EMS) Competency.AI™ empowers health system administrators to address these ongoing challenges through advanced assessment tracking, through onboarding activity documentation, and efficient management of professional development.

### WORKFORCE DEVELOPMENT SOLUTIONS

- **Accelerated onboarding**, getting new clinicians treating patients faster
- **Reduced medical error** through increased training effectiveness
- **Standardized management** of clinical capabilities training and evaluation to reduce costs
- **Increased employee retention** through effective continuous professional development

### COMPETENCY.AI™ FEATURES

#### Simplified Program Development

- Automates mapping of learner training content seamlessly
- Performs comprehensive competency gap analysis to measure effectiveness

#### Full Integration with EMS Solutions

- Obtains and analyzes SIMULATIONiQ™ assessment data
- Integrates with multiple leading Learning Management Systems

#### Clinical Capability Tracking

- Consolidates multisource training data in one system quickly
- Evaluates outcomes at multiple levels across clinical training journey

#### Healthcare Workforce Development

- Provides data and insights to inform workforce planning and development strategies
- Enhances overall patient care quality by ensuring workforce competencies

#### User-Based Dashboards

- Permission-based access and sharing of relevant data
- Universal access via a single sign-on and simple dashboard view

#### Best In Class Support

- Best in industry comprehensive onboarding and one-touch support
- 24/7 and full support services for systems, staff, and clinicians

## HOW DOES EMS' COMPETENCY.AI™ BENEFIT HEALTH SYSTEMS?

Whether you face mission critical workforce development or competency tracking challenges in your organization, EMS's Competency.AI provides the tools you need to unlock the true potential of your institution's training program.

### Individualized Training Plans

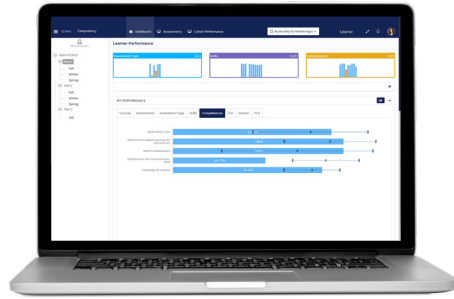

Competency.AI™ enables health systems to identify areas for improvement in employee's competencies and generates personalized training plans to address specific knowledge or skill gaps.

### Ongoing Competency Tracking

EMS solutions provide administrators with a comprehensive view of each clinician's competency development throughout their career in the system and identifies opportunities for further professional development.

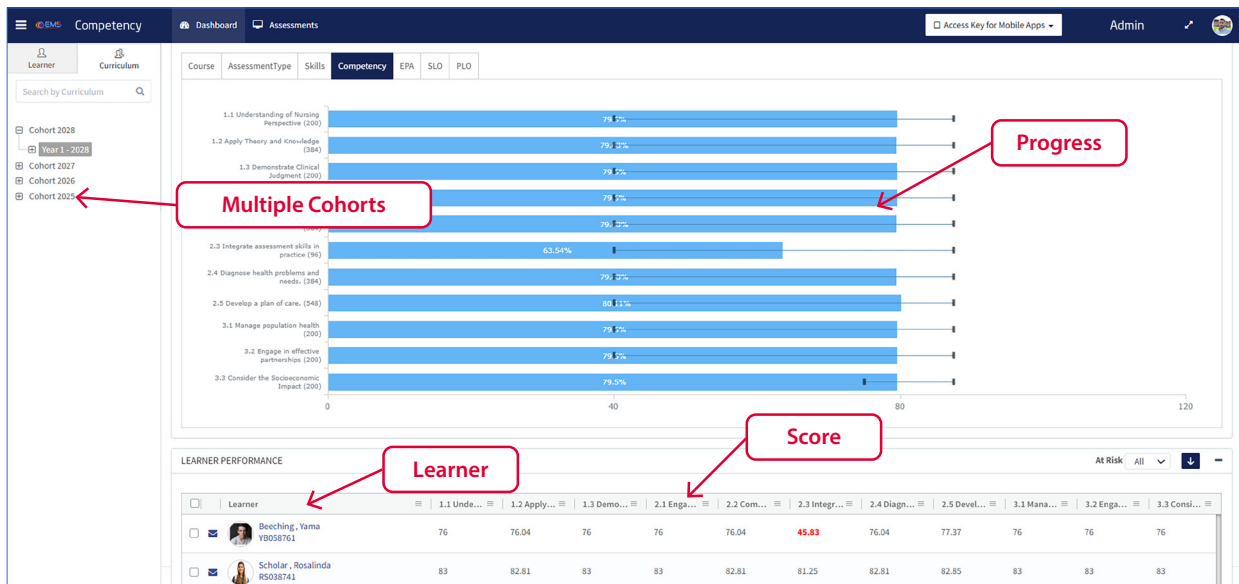

### Comprehensive Dashboards

Simplified dashboard views help organizations easily track onboarding, clinical capabilities, and competency management across entire health systems.

### Compliance and Accreditation Assistance

With Competency.AI™, health systems can maintain accurate and up-to-date competency and assessment data, demonstrating their commitment to quality patient care for regulatory agencies.

## LMS AND ASSESSMENT SOFTWARE INTEGRATION

Competency.AI™

An Integrated Assessment Management Platform to Track and Manage the Full Lifecycle of Your Healthcare Training Program
