SIMULATION iQ™ for Higher Education
Enterprise

Cloud & On-premises solutions | Hardware & Software Agnostic | Effective service support

Education Management Solutions' SIMULATIONiQ™ Enterprise helps educators maximize the learning potential of simulation-based training through comprehensive simulation management, skills assessment, and audio-video capture capabilities that streamline the activities of clinical simulation centers.

Conduct better debriefs, improve program efficiency, and improve learner outcomes with Enterprise, your one stop simulation management solution.

A TRUE ENTERPRISE SOLUTION

- Automate simulation management for efficient program control
- Enhance learning outcomes with superior capture and live debrief
- Custom integration with third party video conferencing tools, LMS and native tools for better instructor-learner alignment
- Provide maximum program flexibility with hardware and software agnostic integrations
- Real-time tracking of individual competency improves learner engagement

SIMULATIONIQ™ FEATURES

Simplify Your Simulation Management

- Easy session and scenario scheduling
- Seamless integration with existing systems

Enhanced Quality Improves Outcomes

- HD recording and live room observation
- Manikin integrations with vitals, events, and bookmarks

Impactful Debriefs and Content Sharing

- Rapid simulation and learner debrief
- Video editing and permissions-based sharing

Actionable Data

- Robust user tracking and analytics dashboard
- Universal access via a single sign-on and simple dashboard view

Simple Integration

- Seamless integration with audio-video system
- LMS compatibility through common LTI standards

Responsive Support

- Comprehensive onboarding and one-touch support
- Systems, staff, and clinicians are fully supported

EMS
Education Management Solutions

SIMULATIONIQ™ ENTERPRISE: AN ALL-IN-ONE SIMULATION SOLUTION FOR HIGHER EDUCATION

Delivering unmatched performance with either on-premise or cloud-based installations, SIMULATIONiQ™ Enterprise unifies your standardized patient or manikin-based training into a single easy-to-use platform that simplifies simulation management and improves learning outcomes .

Account for Limited Resources

SIMULATIONiQ™'s fully-automated systems streamline your simulation program, reducing staff workload and improving efficiency.
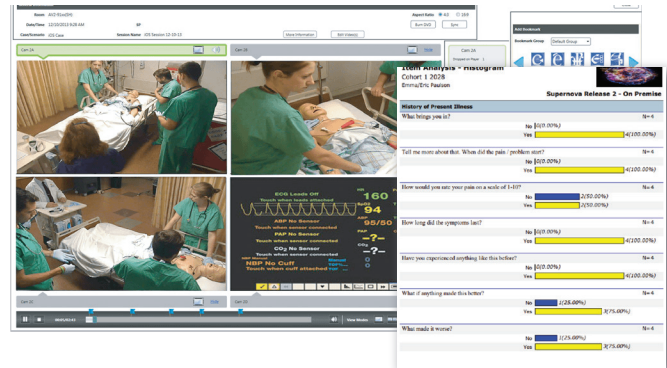

- **Automatic scheduling of rooms, participants, and simulators**
- **Easy-to-use scenario session creation and management**

Expand the Reach of Your Program

SIMULATIONiQ™ Enterprise facilitates remote and hybrid learning, ensuring comprehensive evaluation with measurable results no matter where your students are.

- **Integrated video conferencing**
- **Permission-based web access and two-way viewing from any remote device**

Track Your Program with Key Analysis Tools

Maximize learning outcomes resulting from you simulation program by monitoring trends, generating data on training scenarios, and plan for the future with real-time analytics.

- **Comprehensive performance reporting with DashboardKPI™**
- **Holistic simulation reporting (Item analysis, video engagement, and learner score metrics)**
- **High-definition audio and video capture**

ENTERPRISE USE CASE SCENARIOS

Simulated Patient Scenario Training – Full featured simulation improves competency, enhances patient safety, and increases confidence for future healthcare professionals.

Multidisciplinary Team Training – By leveraging an enterprise-level simulation platform, students from various healthcare disciplines can learn to collaborate effectively, enhance communication, teamwork, and patient care coordination.

SIMULATIONIQ™ Enterprise

The only all-in-one on-premises or cloud-based simulation management solution built for higher education professionals.
