

How JoVE works

Used by over 1,300 institutions, JoVE easily aligns with any course, curriculum, or modality, providing faculty with an additional resource for students.

Faculty choose JoVE to:

Build learner confidence

Increase student engagement

Improve learning outcomes

Provide affordable and inclusive solutions

Integrating JoVE into your course

You know how to teach your course, and with JoVE, you decide how the videos integrate into your curriculum. Faculty can choose to:

Use as a primary source

With videos aligned to major textbooks and curricula, JoVE can serve as a full replacement for course materials.

Use as a supplement

With thousands of videos spanning various topics, you can match content directly to your existing course materials.

All videos can be directly linked to your Learning Management System for easy student access

Get started with JoVE

Follow these steps to integrate JoVE into your course:

1

Request your first playlist

Provide JoVE with your course syllabus or textbook, and our subject matter experts will build a video playlist for free.

2

Select videos that align with your course

Explore pre-made playlists or utilize the mapping tool to discover videos that align seamlessly with your textbook and materials.

3

Integrate into your course

Add videos directly into your Learning Management System (LMS), create quizzes, and utilize our Customer Success team for seamless integration.

4

See JoVE in action

What's better than witnessing your students having an "aha" moment? See them improve with every video, gaining confidence and grasping concepts.
