

A COMPLETE VIDEO OBSERVATION  
AND RECORDING SYSTEM,  
DESIGNED SPECIFICALLY FOR  
HEALTHCARE SIMULATION

## Are you looking for a video capture system that accommodates the diverse and changing needs of healthcare simulation?

VALT is a video observation, recording and debrief system designed to support the healthcare simulation objectives of multiple departments in one enterprise-wide solution. VALT scales with minimal hardware to provide each department their own unique, secure tool for simulation capture and participant assessment. VALT is easy to configure and easy to use, so simulation coordinators and participants can focus on learning outcomes and improved patient care.

Contact [sales@ipivs.com](mailto:sales@ipivs.com) and we'll work together to create a turnkey solution that includes the

VALT software, hardware and professional services required to support the individual needs of your healthcare simulation programs.

### AUDIO CAPTURE

IVS offers ceiling or wall mounted microphones acoustically matched to project requirements. Advanced DS options are also available to filter out unwanted noise.

### IP CAMERAS

VALT supports PTZ and fixed HD IP cameras from Axis Communications mounted on the wall, ceiling or covertly.

### DATA CAPTURE

VALT can capture display data from any display device using an HDMI encoder.

### CONTROL ROOM

IVS designs control room audio solutions for providing real-time instructions or patient voices that can also be incorporated into the recording for debrief.

“We have been able to conduct nursing simulations in a whole new way. The student experiences are richer and more robust and their learning is more complete. It was the piece that allowed us to use our nursing labs to their full capacity.”

Sheryl Scott , Associate Professor

## FEATURES

HD cameras for any size room

HQ microphones with perfect AV synch

Simple browser-based software interface

Data encryption to meet HIPPA requirements

Custom data fields and bookmarks for feedback

### Active Implementations Include:

VALLEY CHILDREN'S HOSPITAL  
Interdisciplinary Simulation Program

NORWALK COMMUNITY COLLEGE  
Nursing Department and Simulation Center

COLLEGE OF EASTERN IDAHO  
Department of Health Professions /  
Simulations Lab

SPOON RIVER COLLEGE  
Nursing and Allied Health Department

MINNESOTA STATE UNIVERSITY MANKATO  
College of Allied Health and Nursing

MIRACOSTA COLLEGE  
Nursing & Allied Health Department
